

PSHP Members:

Have you encountered any of the following situations?

- Seen instances of a new drug interaction or FDA recall notice and wonder what steps your organization needs to take to comply?
- Looked to make a career move in some other region of the state?
- Felt like the lawmakers in Harrisburg or Washington D.C. didn't have a clue about how complicated that new pharma bill is going to make your average work day?
- Needed a fresh approach to a difficult research problem or patient case complication?

Of course you have. And what is the solution to all of these problems? More PSHP members. That's right. You heard me. More members. Why do we need more PSHP members? Consider the following:

More Members Means → Bigger, stronger chapters which in turn able to provide:

- Better chapter programming on the latest topics of interest to you
- More networking opportunities with other professionals in your area
- More opportunities to develop leadership skills or find a mentor locally or somewhere on the other side of the state

A Bigger, Stronger PSHP

- Provides a large network to tap into for networking, problem solving, and career opportunities
- Creates a stronger voice to influence for proposed state and national legislation
